Using Remote Apps- Apple MacOS

What is Remote Apps?

Remote Apps allows you to access software used in school on your home computers. Remote Apps also allows you to access your school documents as well as the shared drives from home.

Where do I find Remote Apps?

Royds Hall and Primaries: https://rhsrds.sharemat.org/rdweb/feed/webfeed.aspx
Thornhill Community Academy: https://tcards.sharemat.org/rdweb/feed/webfeed.aspx
Shelley College: https://shcrds.sharemat.org/rdweb/feed/webfeed.aspx
Whitcliffe Mount: https://wmards.sharemat.org/rdweb/feed/webfeed.aspx

What do I need to use Remote Apps on a Mac?

You will need the following:

You need an Apple computer, running OS X 10.6.0 or later
Access to the App Store – thus also an Apple ID
App 'Microsoft Remote Desktop 10' - https://apps.apple.com/gb/app/microsoft-remote-desktop10/id1295203466?mt=12

Signing in to Remote Apps

To use Remote Apps you will need to sign in to the app. To sign in you need to use your school email address and password.

Username: YOUR_SCHOOL_USERNAME@SHAREMAT.CO.UK

**Password:** YOUR_SCHOOL_PASSWORD

Setting up and using the App

Download and install the Remote Desktop app from Apple's AppStore (see the above link for app information). Once the app is installed, please proceed with the instructions on the next page.

In the Microsoft Remote Desktop app, you will now need to add your school's Remote Apps server.

Click **'Add Feed'** to add the server.
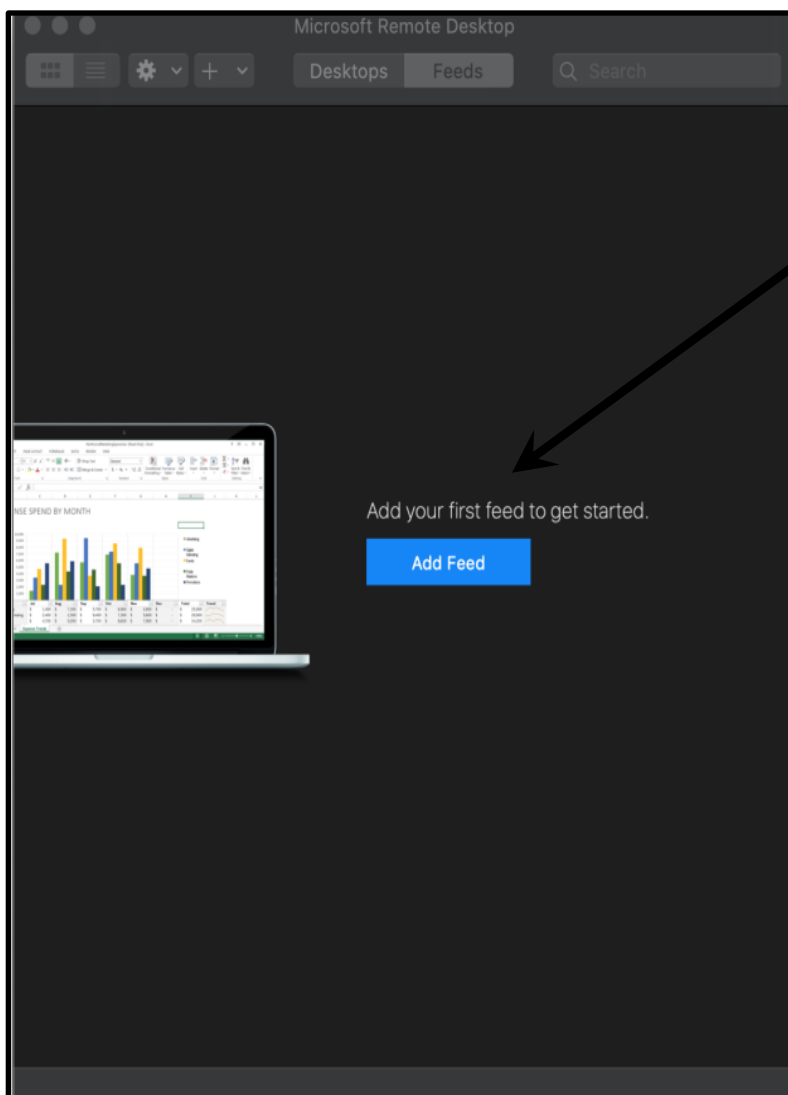

In the **feed URL**, enter the web address for your Remote Apps server from the first page of this guide.

For example, for Royds Hall this would be: https://rhsrds.sharemat.org/rdweb/feed/webfeed.aspx

In the **'User account'** list, add a new user account and use your school email address and password as the username and password.

Click **'Subscribe'**.
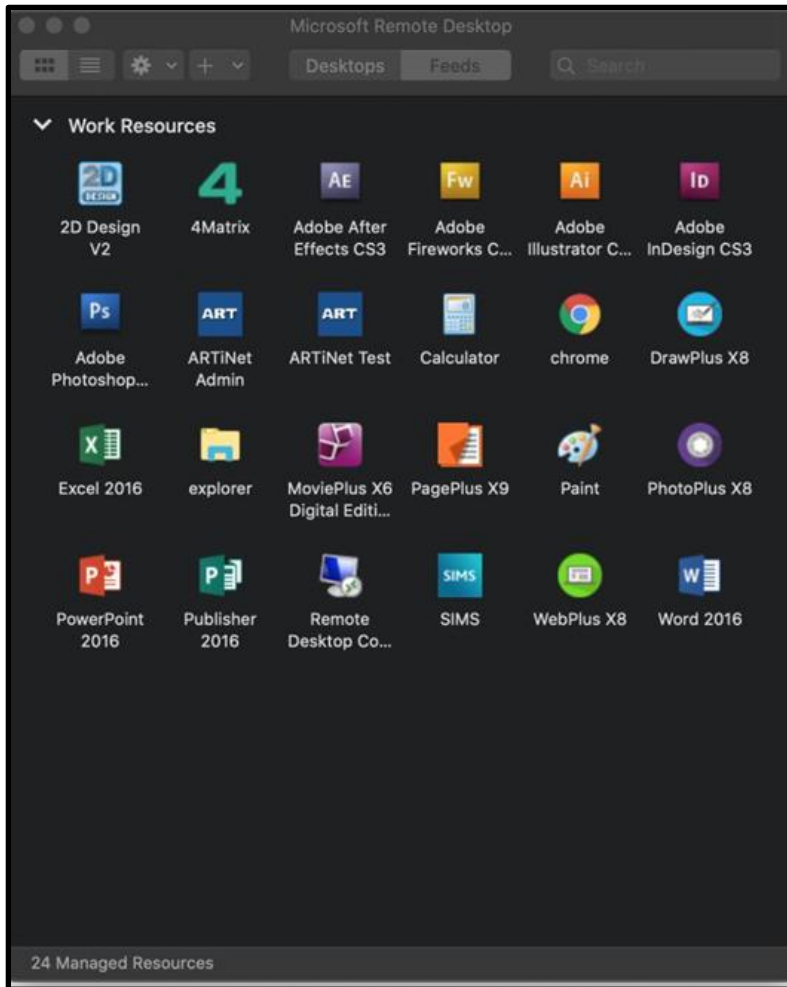

If you successfully entered the details correctly in the previous step, and your device has an Internet connection, after a few moments you will see a grid view of software packages.

These are the school resources available to you through the Remote Apps server and are ready to be used.

That's it! You don't need to worry about signing out.
